INDEX

VOLUME XXVII, 1960

Subjects and Titles

Abstracts: M. M. Album, 147, 246, 296

Academy Reports: 242

A Dues Increase Means Progress: 281

American Board of Pedodontics Report: 304

Application of Roentgenographic Cephalometry to Pedodontic Research: 97

Biting Habits—A Report: 68

Case Report of Giant Cell Tumor of Mandible: 150

Changes in Salivary Lactobacilli Counts Following Dental Procedures in Children: 65

Cleft Lip and Palate in Twins and Offspring of Twins—Abstract: 246

Clinical Acceptance of Stannous Fluoride Prophylaxis Paste: 282

Combined Approach by the General Practitioner and the Orthodontist to the Solution of Certain Pedodontic Problems: 286

Comparison of the Increment of Fluoride in Enamel and the Reduction in Dental Caries Resulting From Topical Fluoride Applications—Abstract: 246

Conference of National Organizations for Areas of Dental Practice: 139

Dental Caries Experience of Mongoloid Children: 292

Dental Findings in Cerebral Palsy: 233

Dental Treatment of the Diabetic Child: 55

Do Fractured Incisors Migrate?: 178

Expansion of the Midpalatal Suture, Studied by Means of Metallic Implants—Abstract: 147

Follow-Up Study of Teeth Replanted After Accidental Loss—Abstract: 147

From Your President: 2, 84, 156, 252

Histologic Effects of Various Drugs on Amputated Pulps of Rat Molars—Abstract: 296

How Good Is Vital Pulpotomy for Primary and Permanent Teeth?: 85

Hypodontia and Hyperplasia: A Case Report: 223

Index to Volume XXVII: 333

Is Premedication Necessary for Handicapped Children?: 40

Los Angeles Low-Down: 303

Loss of Space by Extraction of Primary Molars: 275

Management of Teeth With Pulp Polyps: 3

Minutes—1959 Annual Meeting—A.S.D.C.: 76

Minutes—1960 Annual Meeting—A.S.D.C.: 320

Mizzy Award—Announcement: 295

New Executive Council Members: 253

Occupational Dermatitis in Dentists—Abstract: 296

Occurrence of Caries in the Adjacent Surfaces of Second Primary and First Permanent Molars: 273

Officers and Committees, A.S.D.C.: 148, 248, 331

Oral Conditions of the Mentally Retarded Patient: 277

Pedodontics in Russia: 225

Pictures—1960 Annual Meeting—A.S.D.C.: 312

Psychopathologic Thumbsucking—A Case Report: 143

Pulp Conservation With an Antibiotic Agent: 5

Pulp Testing: An Evaluation of Various Technics: 107

Relationship Between Lactobacillus Counts, Snyder Tests and the Subsequent Incidence of Dental Caries—Abstract: 246

Relationship of Pedodontics and Pediatrics: 212

Report of Special Committee on Finances of A.S.D.C.: 180

Report of Three Patients Experiencing Juvenile Periodontosis and Early Loss of Teeth: 169

Research in Design of Children's Toothbrushes: 60

Retrolental Fibroplasia With Hypoplasia of the Primary Teeth: 144

Sodium Fluoride Mouthwash—Can It Help?: 267

Speech Disorders in Children: 196

Stannous Fluoride Enamel Pigmentation—Evidence of Caries Arrestment: 157

Stress and Duodenal Ulcer—Abstract: 296

The Dental Cements: A Review of Their Physical and Chemical Properties: 113

The Dermestid Beetle Method of Skull Preparation: 203

The Effect of Metal Reinforcements on the Transverse Strength of Acrylic Resin: 162

The Effectiveness of Stannous Fluoride in Children Residing in an Optimal Communal Fluoride Area: 51

The Number and Types of Films Necessary for a Satisfactory Radiological Survey for Children: 91

Therapeutic Pulpotomy: 36

The White House Conference on Children and Youth: 239

The Development of the Permanent Teeth: 254

Topical Stannous Fluoride in a Pedodontic Practice: 140

Unit News: 13, 127, 181, 305
